As per our discussion on Monday here are the reports. The HW106.pdf is what was sent to homeowners. Key.pdf is the explanation and the second HW106.pdf is the tox report (this one has the MDLs). Let me know if one of these does not have the MDLs since I sent this using Webmail.

Cindy-

Not sure if you are still there - but I am planning on calling you in a few minutes to follow up on your question about the tox report/review.

Please see the attached - this is an example of what we provided to the tox for the review of the first set of data.

Thanks - Kelley
